FOR IMMEDIATE RELEASE

**OneShield Named in the Insurer's Choice Technology Ranking
Ranked Among Top Three "Up and Coming" Technology Firms for Property & Casualty Industry**

June 25, 2009 – Westborough, MA – [OneShield, Inc.](#), the developer of [OneShield Dragon](#)[®], an innovatively modern, rules- and tools-based, data-driven policy management solution, announced today the research firm Financial Insights, an IDC Company, and [Tech Decisions](#) have named the company to the 2009 Insurer's Choice Technology Ranking.

The Insurer's Choice is an annual listing of the leading insurance technology vendors as ranked by insurance company professionals via an online survey. Insurance company professionals participate by providing information about the most important technology firms they use and the level of satisfaction with those firms. This year, OneShield was among the top three "Up and Coming" technology firms for property/casualty insurance.

"We are honored to be included as the Insurer's Choice is voted solely by insurance company professionals and reflects the opinions of the industry," said Glenn Anschutz, President and CEO. "This recognition reflects our continued commitment to offer insurance companies modern and well-defined policy management software solutions. Our thanks and appreciation is extended to our customers, Financial Insights and *Tech Decisions* for this recognition."

Respondents were surveyed across several categories including: supporting business operations, product and services development, quality customer care, optimize business processes and workflow and information analytics. The results are determined by insurance companies in the United States and Canada and include the life and health (L&H) insurance market, as well as the property and casualty (P&C) market.
