

For Immediate Release

Omaha National Underwriters Goes Live in 8 Weeks with OneShield's Cloud-Based As-A-Service Policy Management Solution

Omaha National Underwriters and OneShield Software today announced that Omaha National Underwriters has fully deployed the OneShield Market Solutions Policy Management Solution designed for Workers Compensation products of small and mid-sized insurers.

Marlborough, MA – May 1st 2018; With a business model based on using innovative strategies and state-of-the-art technology to reduce costs and increase efficiencies for business customers, **Omaha National Underwriters (ONU) OmahaNational.com** of Omaha, Nebraska, deployed **OneShield Market Solutions (OMS) OneShield.com** to provide an integrated technology offering for policy, billing, claims, loss prevention and medical case management administration for workers' compensation across the United States.

OneShield's cloud-based application empowers insurers and other specialty markets to automate and streamline the handling of all stages of a product portfolio lifecycle with custom rate handling, billing and payment plans, and wide-ranging workflow-specific procedures.

"With our emphasis on leveraging web-based technologies, we needed a solution that could accommodate our unique processing needs," says Naomi Wilson, Chief Operating Officer of ONU's parent company Omaha National Group.

ONU also required a solution that would give business users and management easy-to-use reporting tools and access to business metrics. With OneShield's "As-A-Service" cloud-based application, ONU can:

- Unify and automate the policy, billing and claims handling processes.
- Improve efficiencies and reduce risk with consistent handling of files.
- Adopt a truly paperless file management process.
- Eliminate many routine and manual tasks with a configurable rules engine.
- Centralize the user experience by reducing manual data entry into multiple systems.
- Leverage software APIs and XML interfaces to third-party data providers.

"The speed-to-market capabilities of Cloud-based technology is the optimal solution for our business model," says Wilson. "In fact, OneShield Market Solutions' 'As-A-Service' offering was up-and-running for testing within just weeks of our contract signing, allowing us to rapidly accelerate our work-flow processes and plans to roll out marketing in jurisdictions across the country."

"We are proud to welcome Omaha National Underwriters to the OneShield family and pleased we could help deploy its solution within an accelerated timeline" says OneShield President & CEO Glenn Anschutz. "This project timeframe speaks to the evolving trend we see for insurers wanting to rapidly adapt their businesses as the market dictates. By working in partnership with innovators such as Omaha National, we are delivering on these goals with SAAS solutions that give our clients a clear time-to-market differentiation in the marketplace."
