Claims Solution Overview

info@oneshield.com OneShield.com (888) 663-2565

Automate and streamline every stage of the claim administration cycle – all with detailed reporting and analysis.

In today's competitive marketplace, delivering seamless customer experiences and top-notch service is paramount while running your operations as efficiently as possible. OneShield Market Solutions' Claims module automates and streamlines every stage of the claim lifecycle reducing your overhead expenses, improving your operational efficiencies and service quality.

Adaptable, integrated, and secure, OneShield Market Solutions' (OMS) reduces rising IT costs and pressures, leaving you more time to focus on business priorities like customer service and innovation. Hosted in the cloud, our SaaS model includes license, hosting, support, implementation, annual managed service hours, and upgrades, all in one annual fee. Upgrades and enhancements are pushed monthly, so you will always be on the latest version.

From the First Notice of Loss (FNOL) through to file closure, we can quickly and easily tailor workflows, business rules, codes, tables, forms, and documents to match your desired processes. Now you can more easily manage your business to the standards you and your customers set.

Claim Management:

- Recording and storage of new loss notices (including FROI/SROI) from a web portal, email, or manual entry
- Agency and customer portal for reporting new loss and status tracking
- Scripting for claims intake with reflexive questioning
- Custom question sets to prompt additional, mandatory questions depending on given answers (branch scripting)
- Powerful Business Rules Engine tailored to calculate alerts, trigger specific workflows, assign a claims handler, and support escalation
- Support for various claims handling rules, i.e., duplicate claims checking
- Claim summary and detail screens
- Assignment administration
- Custom claim adjudication
- Reserve and sub-reserve categories
- On-demand and bulk payments
- Role-based Authorities (Reserve and Payment) with escalation workflows
- FROI/SROI EDI reporting and integration with external vendors and services (e.g., car rental companies, car/equipment repair shops) are available via integration to a third-party system or service
- Fully integrated journal and task management for claims adjusters
- Litigation management
- Salvage and Subrogation management
- Special investigations module
